ABOUT MACKWORTH

SIX DECADES OF COMMERCIAL VEHICLE BODY BUILDING

Mackworth has been a key name in commercial vehicle body building for decades. Based on our Derby site since the 1960s, we have evolved from a local bodyshop into a trusted national supplier for fleets across the UK.

Explore the Mackworth modular racking range in full. A system designed around the trade it serves, and configured to the vehicle it works in.

A van is a workspace. Make it your workspace.

BUILD YOUR OWN RACKING

Use the MVC configurator to configure the right racking for you.

CONFIGURATOR

THREE STEPS

01 **PICK THE VEHICLE**

Choose make, model, wheelbase and roof height.

02 **LAY OUT THE RACKING**

Choose from our wide range of components. Configurator builds the racking simultaneously as you choose, with real-time information on weights and load area.

03 **SEND IT TO US**

Save the layout and share the reference.
